I'm a JS lover from Mexico City with 6+ years of experience specializing in front-end technologies. I build web apps with a focus on smooth UX that users can enjoy. I put special care in writing clean and elegant code.

WORK EXPERIENCE

GRIO MEXICO

React Developer — Jul 2019 - Today

- Built a desktop and mobile responsive web app.
- Created a library of reusable components using React / Redux and Material UI.
- Reduced app's loading time by virtualizing render of large data sets.
- Boosted app's performance by inspecting code's impact on React's lifecycle.
- Set and evaluate periodic goals alongside with stakeholders.

GLOBANT MEXICO

Angular Developer — Sourceability | Oct 2018 - Jul 2019

- Improved user experience by redesigning widgets to be interactive and facilitate the user to manipulate data and rearrange layouts.
- Reduced app's initial loading time by better bootstrapping Angular and better managing DOM manipulation.
- Followed Scrum methodology.

Javascript / Node Developer — Zaplabs | Sept 2017 - Oct 2018

- Built brand's custom CMS to organize content creation.
- Created blog's editing tools using Javascript and ES6.
- Implemented a reverse-proxy using Node/Express to fetch assets from specific brand server.
- Organized under Kanban methodology.

React / Node developer — DWA Nova | Sept 2016 - Aug 2017

- Launched a desktop app that syncs and versions existing local files to the cloud.
- Developed app's interface using React/Redux components wrapped in Electron lib.
- Built a Node server to handle communication between the app and an AWS bucket instance.
- Implemented a REST API with Express to interchange files between AWS and local filesystem.

AngularJS Developer — United Airlines | Nov 2015 - Sept 2016

- Developed a control panel to administrate personnel and daily tasks using AngularJS, ES6 and SASS.
- Created widgets with a focus on reusability to share components among projects.
- Automated tasks to build environment and scaffold components using Webpack and Gulp scripts.
- Followed Scrum methodology.

INDIGO SMART SOFTWARE DEVELOPMENT

.NET Developer — Aug 2015 - Nov 2015

- Designed and created an API for processing payments in an e-commerce application using .NET.
- Maintenance of existing RESTful web services created with .Net MVC4.

SKILLS

Technical

JS (ES2020)

React / Redux

NextJS

Node

Express

Sails

SASS

MongoDB

PL/SQL

GraphQL

REST

Jest, Mocha, Chai, Enzyme

npm, git, Webpack

Scrum, Kanban

EDUCATION

Diplomate Course Embedded Linux
University of Mexico (UNAM)

B.S. in Electrical & Electronics Engineering
University of Mexico (UNAM)
